About the Turkish Journal of Gastroenterology

Turkish Journal of Gastroenterology is a peer reviewed, open access, online-only journal published by the Turkish Society of Gastroenterology.

Turkish Journal of Gastroenterology is a monthly publication that is published in English.

Abstracting and Indexing

Turkish Journal of Gastroenterology is covered in the following abstracting and indexing databases; Web of Science-Science Citation Index Expanded, PubMed/MEDLINE, EMBASE, Scopus, DOAJ, China National Knowledge Infrastructure (CNKI), TUBITAK ULAKBIM TR Index, EBSCO, Gale.

All content published in the journal is permanently archived in Portico.

Aims, Scope, and Audience

Turkish Journal of Gastroenterology aims to publish studies of the highest scientific and clinical value, and encourages the submission of high-quality research that advances the understanding and treatment of gastroenterology and hepatology issues.

Turkish Journal of Gastroenterology covers a wide range of topics related to gastroenterology and hepatology, including diagnostic methods, treatment techniques, and prevention strategies. The journal is interested in publishing original research that addresses important clinical questions and advances the understanding and treatment of these conditions. This may include studies on the effectiveness of different treatments, new diagnostic tools or techniques, and novel approaches to preventing or managing gastrointestinal, hepatic, and related conditions.

Turkish Journal of Gastroenterology publishes clinical and basic research articles, reviews, systematic reviews and meta-analyses, video articles and letters to the editor. Conference proceedings may also be considered for publication.

The target audience of the journal includes healthcare professionals, physicians, and researchers who are interested in or working in the gastroenterology and hepatology field, and related disciplines.

Open Access Policy

Turkish Journal of Gastroenterology is an open access publication.

Starting on August 2022, all content published in the journal is licensed under the Creative Commons Attribution (CC BY) 4.0 International License which allows third parties to read, copy and redistribute the material in any format and adapt the material for any purpose immediately upon publication by giving the appropriate credit to the original work.

The content published before August 2022, was licensed under a traditional copyright, but the archive is still available for free access.

All published content is available online, free of charge at turkjgastroenterol.org.

When using previously published content, including figures, tables, or any other material in both print and electronic formats, authors must obtain permission from the copyright holder. Legal, financial and criminal liabilities in this regard belong to the author(s).

Authors retain the copyright of their published work in the Turkish Journal of Gastroenterology.

Copyright Policy

A Copyright Agreement and Acknowledgement of Authorship form should be submitted with all manuscripts. Authors should submit the Copyright Agreement and Acknowledgement of Authorship form to the online submission system during the first revision. By signing this form, authors transfer the copyright of their work to the Turkish Society of Gastroenterology and agree that the article, if accepted for publication by the Turkish Journal of Gastroenterology be licensed under a Creative Commons Attribution (CC BY) 4.0 International License which allows third parties to read, copy and redistribute the material in any format and adapt the material for any purpose immediately upon publication by giving the appropriate credit to the original work.

Publication Fee Policy

Starting on February 1, 2023, the Turkish Journal of Gastroenterology will collect an article processing charge (APC) for all articles.

Upon acceptance of the manuscript, authors should transfer the payment to the account stated in the acceptance letter. Following the transfer, please send your receipt of payment to info@turkjgastroenterol.org. Below is a list of APC amounts based on the type of manuscript.

- Original Article/Review – 1200 USD (VAT included)
- Letter to the Editor – 720 USD (VAT included)
- Research Letter – 720 USD (VAT included)
- Video Article – 480 USD (VAT included)

Please note that all submissions are evaluated by the Editorial Board and the external reviewers in terms of scientific quality and ethical standards. APC payments do not affect the outcome of the article's evaluation or its publication priority.

There are no surcharges based on the length of an article, figures, or supplementary data.

Any financial contribution or support received from third parties for a manuscript should be disclosed at the time of initial submission. Should APC be paid by a third party other than the author or the author's institution, authors must provide this information on the title page and ICMJE Disclosure Form.

APCs cover the expenses for publishing services the journal provides, including costs of peer review administration and management, professional production of articles in PDF and other formats, and dissemination of published papers in various venues and other publishing functions.
