

THE TURKISH JOURNAL OF GASTROENTEROLOGY

From the Editor

I am happy to inform you that beginning with 2015, we are going to publish Turk J Gastroenterol monthly.

We have significantly shortened the evaluation process in 2014 and with the new monthly publication frequency, we are going to overcome publication delays too. In 2015, a submitted manuscript will have a final decision within the 4-8 weeks of submission and each manuscript will be published online in ahead of print format within 4-8 weeks of the final decision.

In 2014, our top articles were downloaded between 4000-8000 times. In the same year, for example, top articles of UEG Gastroenterology (Official Publication of United European Gastroenterology) were downloaded between 1000-2000 times. We are expecting this trend to positively affect Turk J Gastroenterol's Impact Factor in 2016 and 2017. You would appreciate that we are unwilling to publish articles with low citation potential. Our download rates proves that we are selecting the right articles.

***In 2014, our top articles
were downloaded between
4000-8000 times***

In due course, we would be pleased to receive your high quality papers for rapid publication. As it was stated before, we do not publish single case reports and publish only very original case series. Letters to the editor are confined to comments on published articles.

We hope, our collaborative efforts would yield a golden year for Turk J Gastroenterol. Why don't you become a part of it?

Sincerely,

Hakan Şentürk
Editor in Chief
